

Group Health Centre Pharmacy

Pill Pak Testimonial

The Group Health Centre Pharmacy has been using the Manrex Pill Pak system for a number of years. It works very well for our customers to ensure their compliance and reduce medication errors. Many of our customers are elderly and live alone the Pill Pak system helps them remain independent, as the instructions on the package are very clear and they know at a glance that they have the right medications for the right time. For the pharmacy staff the packages are very easy to fill and seal.
